

Problem

- Junk food is **unhealthy** and quality food is **expenssive** in restaurants
- Employers and students don't have **time** or experience to cook by themselves
- Ordering food through apps is **difficult** takes time and results are not always like in photos.

 Selling food through social media is not guaranteed nor secure for home chefs.

Solution

An online platform for homemade food ordering and delivery.

Healthy food with fresh ingrediants Order in advance & stop thinking what to eat everyday

Made by talented local home chefs

Marketing tooll & Source of income for the home chefs

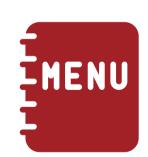

1. Set when your food should be delivered
